

Task-based assessment

...they will be *task-based performance tests*. That is, the focus will not be on language as an object, but on a student's ability to *do real tasks*, or simulations thereof. Put another way, success or failure in the assessment will turn on whether or not the teacher or outside examiner observes specific behavior(s) on the part of the students called for by the needs analysis.

Long (2015,p.330)

Principles of “real world tasks”

“真实”的7个原则

真实话题内容 (Real life thematic content)
