

Chunks from the CONYE Corpus

The Corpus of Native-Speaking Youth English (CONYE) was created in 2022 under the auspices of a British Council China grant awarded to TransformELT (UK). From this corpus, chunks containing words that are on the wordlists created for the New National English Curriculum in China were processed and downloaded into a database. The chunks are used in language that native-speakers at the KS1 to 3 levels in the UK system read, hear, write and/or say.

A full description of the project, including the creation of this Book of Chunks, is available in *How British native speaker children use the words on the Chinese vocabulary lists* (Thomas, J. 2023).
